

ARC Requests from Unit 2935: Storm Door and Window Replacement

Minutes- June 26, 2022

ARC members present: R. Kutsch, S. Mays, M.E. Junquera

1:00PM the ARC members met with unit owner Emilia Guilford who had requested to install a new Storm Door as well as replace existing windows with double panes.

Both requests are in accordance with our HOA specifications.

The storm door will be purchased at Lowe's which is the vendor familiar with our specifications for storm doors.

The windows request was discussed and Ms. Guilford was made aware of the number of problems some owners have had with Window World including one ARC member. She will look to other companies to do the work and will let us know.

Unanimously the ARC members recommend her requests be approved.
